

Catalyst product features

Budgeting, Planning & Forecasting

Plan from the top down or bottom up. Cut cycle times in half. Easy to use with numbers that always tie out.

Data Cubes & Analysis

Slice, dice & drill into your financial, profitability & other data to approach problems from multiple angles.

Data Warehouse & Data Lake

Access insights from all of your structured and unstructured data sources from one easy-to-use tool.

Dashboards & Visualizations

Instantly spot key risks and opportunities by pairing real time cloud analysis with Power BI Visualizations.

One-Click Reporting

Easily automate financial and operational reports for up-to-the-minute insights with 1+1+1=3 accuracy.

User Managed

No more IT involvement. Manage users, hierarchies, scenarios and security with a no-hassle approach.

✔ FASTR™

As a cloud-based solution, Catalyst easily plugs right into your systems and is 90% ready out of the box. Our FASTR™ Process is an industry-leading 4-week implementation plan for the last 10%. We help you with organization-specific customizations and fully train your team so you're running at full speed company-wide in less than one month.

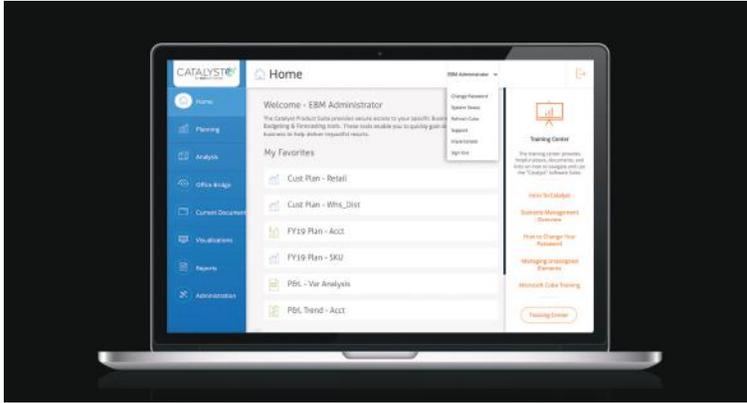

✔ Let Us Prove It To You

Sound too good to be true? Don't worry, we're more than happy to prove it to you. Ask us for a proof-of-concept with your own data (or a demo with sample data, your choice), and we'll show you how quickly Catalyst can be up, running and paying for itself with the insights it provides.

Implementation

“ The guys from EBM leading the implementation were the two best service providers I've ever had. People told me 'this is not going to be like implementing a new ERP system,' and they were right. The pace was excellent, and every curve ball we threw at them, they hit. Everything from management adjustments that don't reside in our ERP to historical pre-acquisition financials —no problem, they got them in. ”

Gary Galeziewski, CFO Louisiana Fish Fry

“ Catalyst’s feedback loop helps us identify where our growth is, where we’re forecasting it to go and how good we are at forecasting it. It’s very important for driving accountability in sales. We’re able to establish sales goals down to the customer level and measure progress throughout. ”

Chris Rogers,
CFO, Dessert Holdings

“ Catalyst is a place where one can get a full picture of Targeted PetCare. One source of truth. It allows us to create a uniform P&L across all the operating companies, but also leave them in their native structure, so each op-co can run the business the way they want to. ”

Deepak Chichili,
CFO, Targeted PetCare
